

FROM SAMPLE TO CONFIDENCE

Integrated Food & Dairy Quality Control Solutions

Cryoscopy Standards
& Consumables

- 🔍 Detect Adulteration.
- 🛡️ Strengthen Quality Control.
- 🛡️ Protect Your Brand.

CryoTouch 20

Automated Milk Cryoscopy

LACTOSE-FREE PROCESS MONITORING
Helps monitor lactose removal in milk and cream.

Automated 20-sample
cryoscope for reliable
added-water screening.

Compliant with
ISO 5764 | IDF 108:2009

CRYOSCOPY FOR EVERY WORKLOAD

- CryoSpecial 1
- CryoTouch 1
- CryoTouch 20
- CryoTouch 40

Speedy Lab

Five key dairy
parameters in about
60 seconds.

Deimos

Homogenizer with optional
cooling for reliable food
sample preparation.

AstorMixer

Refrigerated homogenization
preserves sample moisture
for reliable results.

Astor 8 Digit

Digital 8-place centrifuge
for standardized Gerber
fat analysis.

Astor Multi

Multi-method centrifuge
for Gerber, Babcock
and Mojonnier.

Astor 900/D

Precision water bath
for controlled
Gerber workflows.

AstorBath

Universal water bath for
Gerber and microbiology
applications.

AstorShake

Shaking water bath
for hard-cheese
Gerber analysis.

AstorClave 23

23-litre benchtop
autoclave for safe,
routine sterilization.

Astor 20

Pressure-activated LED
colony counting without
a dedicated pen.

BL Smart Lab Blender

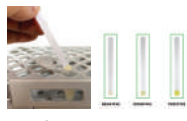

Time-programmable
blending for
microbiological food
sample preparation.

CryoSpecial 1

Reference-method cryoscopy
for low-volume dairy
quality control.

FosfaMilk Test

Verifies pasteurization
through alkaline
phosphatase detection.

Stick c-GMP

Detects added whey in
milk in five minutes.

Quick Afla M1 Strip Test

Screens milk for aflatoxin
M1 in 10 minutes.

Hyaluronic Acid Kits

Quantifies sodium
hyaluronate in functional
waters and beverages.

CryoTouch 40

Automated added-water
testing for high-throughput
dairy QC.

Neutralizers Test

Detects added neutralizers
in milk in under
one minute.

Aflatoxin & Mycotoxin ELISA Kits

Sensitive toxin analysis
across food, feed, dairy
and beverages.

RDS-2500 Strip Reader

Delivers objective,
quantitative Quick
Afla M1 results.

Astor 800/D

Precision thermostatic
control for customized
water bath workflows.

✓ Accurate Testing ✓ Efficient Workflows ✓ Expert Local Support

LET'S BUILD THE RIGHT QC WORKFLOW FOR YOUR LAB

MEDISOL POINT LTD. | Exclusive Distributor for Astori-Manufactured Products

+880 2 2222 42515
+880 1711 227 225

Consultation • Supply • Installation • Training • After-sales support
A central hub for innovative and effective solutions.

COMPLETE YOUR LABORATORY. PROTECT EVERY RESULT.

Integrated Measurement, Monitoring, Infrastructure, Safety & Digital QC

MEASURE • MONITOR • VERIFY • CLEAN • BUILD • CONTROL • PROTECT • CONNECT

LABINDIA
ANALYTICAL
WHERE COMMITMENT IS CULTURE

pH/Conductivity Meter

Multi-parameter measurement of pH, conductivity, TDS, salinity and temperature.

PRECISE MULTI-PARAMETER ANALYSIS

Karl Fischer Titrator

Automated volumetric Karl Fischer titration for accurate moisture determination.

PRECISION MOISTURE ANALYSIS

MET ONE 3400+ Airborne Particle Counter

Portable particle monitoring for controlled processing and aseptic filling areas.

CONTROLLED-AIR MONITORING

Leak Testing Apparatus

Vacuum-based package-integrity testing for sealed packs.

PACKAGE-INTegrity VERIFICATION

Miele

AUTOMATED GLASSWARE CLEANING

COMPACT TO HIGH-CAPACITY SOLUTIONS

Automated washing and drying for clean, reproducible laboratory glassware.

EasyLoad • Reproducible Results

COMPLETE LABORATORY ENGINEERING
WORKSTATIONS • UTILITIES • FUME CONTROL

Purpose-built workstations, integrated utilities and fume-control systems for efficient food and dairy QC workflows.

COMPLETED PROJECT | BANGLADESH

Designed, engineered and delivered for demanding QC workflows.

CONTROLLED-TEMPERATURE QC

Dual BOD Incubator | 10–60°C
Independent incubation zones for parallel microbiology workflows.

Cooling Chamber | 2–8°C
Stable storage for samples, media and temperature-sensitive materials.

Deep Freezer | –25 to –15°C
Dependable frozen storage for retained laboratory samples.

TYPE 90 SAFETY STORAGE CABINETS

Certified fire-resistant storage for flammable liquids in laboratories and working environments.

90-MINUTE FIRE RESISTANCE • EN 14470-1

Type 90

OTHER STORAGE SOLUTIONS

ACID line
Acids & Alkalis

CHEM line
Non-Flammable Chemicals

HSC UTS line
Combined Underbench Storage

CONTROL VAPOURS. PROTECT PEOPLE.

Controlled vapour removal for safer laboratory air.

LABWARE®

ONE CONNECTED QC WORKFLOW. EVERY RESULT TRACEABLE.

Centralize samples, instruments, specifications and release decisions through LabWare LIMS.

LIMS FOR FOOD & DAIRY QUALITY CONTROL

MEDISOL POINT LTD.
Authorized Solution Partner in Bangladesh
